Git, GitHub

Projects

Food Delivery App

Developed Food Delivery Platform with Advance Filtering and Cart Management using React, Node.js and MongoDB

2024 – 2024

Budget App

Developed a web application to track and manage personal budgets using HTML, CSS and JavaScript

2023 – 2023

Personal Portfolio

Built a personal portfolio website showcasing my projects and skills.

2024 – 2024

Quiz App

Created an interactive quiz application with user-friendly interface utilizing HTML, CSS and JavaScript

2023 – 2023

Professional Experience

• Full Stack Food Delivery Website

Developed Food delivery app, implementing key functionalities such as product listing, shopping cart and checkout process. This project provided hands-on experience in developing full stack website and improved my problem-solving skills.

2024 – 2024

• Personal Projects

While not employed formally, I have completed several personal projects that demonstrate my skills and dedication to frontend and backend development.

These projects have equipped me with practical experience in web development, project management and problem-solving and prepared me for professional opportunities in the field.
